194X: Architecture, Planning, and Consumer Culture on the ...

During the Second World War, American architecture was in a state of crisis. The rationing of building materials and restrictions on nonmilitary construction continued the privations that the profession had endured during the Great Depression. At the same time, the dramatic events of the 1930s and

194X: Architecture, Planning, and Consumer Culture on the ...

This is a book about planning, specifically the culture surrounding planning during World War II in the United States and particularly its intersection with architecture and consumer culture. Actual master plans play a negligible role, as do buildings. Rather, it is a cultural history of home front.

In 194X, architectural historian Andrew M. Shanken chronicles the cultural anticipation that consumed architects and the general public alike during World War II. This beautifully illustrated book focuses on the intersection of architecture, economics, advertising, and a wide-ranging obsession with planning on the home front during a time when hope for future prosperity helped comfort.

194X: Architecture, Planning, and Consumer Culture on the ...

Planning for 194X captured the imagination of architects and planners as well as government and business interests. In 194X: Architecture, Planning, and Consumer Culture on the American Home Front, Andrew M. Shanken has spotlighted this brief period in which planning of all types was viewed as a winning approach that would help the U.S. solve its economic and social problems.

Andrew M. Shanken's 194X provides an intellectual history of architecture and urban planning in a time of little building and less architecture, resulting in what he terms "paper architecture," plans and images that linger in archives, but were never implemented. In addition, the study examines the political, economic, and social theories of the era through the lens of the planning movement of 194X: Architecture, Planning, and Consumer Culture on the ...
