Neuropsychological Assessment in Children and Adolescents

Neuropsychological assessment is designed to provide insight into how a child solves problems, can remember information both in the short and long-term, uses and understands language, processes information both visually and orally, and is able to use cognitive ability in a flexible manner. It is designed to provide parents, educators, and [Assessments for Young Children | LD Topics | LD OnLine](#)

Assessments for Young Children. By: ERIC Clearinghouse on Assessment and Evaluation. What is assessment? Assessment is the process of gathering information about a student in order to make decisions about his or her education.
