Stephan Libiszewski: What is an Environmental Conflict? 2 second aspect, most literature is limited to mention empirical examples such as struggles over water resources, conflicts in connection with 'environmental refugees' or the contentions about the responsibilities for the global climate change. These are supposed to illustrate the causal linkage between environment and conflict and

Environmental Conflicts and Regional Conflict Management

conflict management or in a broader sense environmental security. There are two main questions. The first question concerning environmentally induced conflicts asks when and how scarcity of renewable resources and degradation of the environment lead to violent conflict. The second question concerning environmental conflict management asks how large groups of people can use scarce natural

War and armed conflict present a risk for humanity and

other forms of life on our planet. Too many lives, and species, are at stake. Too many lives, and species, are at stake. Decades of ugly wars in countries such as Afghanistan, Colombia or Iraq have led to the immense loss of natural resources.

International Conflicts over Environment:

Stable peace relies on national self-interest, and, while resources that cross boundaries may heighten conflict, the diffusion of pollutants on the wind, in rivers, and in the seas may evoke countervailing cooperation.
