BOOK REVIEW Cybertheology: thinking Christianity in the Era of the Internet, by Antonio Spadaro (transl.: Maria Way), New York, Fordham University Press, 2014, 160 pp., US\$24.00

Cybertheology: Thinking Christianity in the Era of the ...

Cybertheology is the first book to explore this process from a Catholic point of view. Drawing on the theoretical work of authors such as Marshall McLuhan, Peter Levy, and Teilhard de Chardin, it questions how technologies redefine not only the ways in which we do things but also our being and therefore the way we perceive reality, the world, others, and God.

Cybertheology: thinking about Christianity in the era of ...

Thinking about Christianity in the era of the Net] written by Maria Way (researcher on Media and Religion, London) and published on Communication Research Trends, Vol. 31 (2012) no. 3, pp. 37-41. I consider this review a great introduction to Cybertheology for English speaking people who want to know more about it.

Cybertheology: Thinking Christianity in the Era of the

...

Cybertheology: Thinking Christianity in the Era of the Internet aims to clarify just how thinking has changed or remained the same in an era which is often seen as one in which the media's changes have speeded up. It considers both the positives and negatives that may be associated with the internet in relation to Christianity and its theology.
