To scale out or not to scale out, that is the question ... Important: again, this could be faster in absolute terms on your systems with similar data, as my test system is very gross. It could also be slower if your server is quite busy, has crusty drivers installed, is on a choked-out network, etc.

New support for # and % in SharePoint Online and OneDrive ...

Enabled the special character feature on our tenant using Sharepoint Online Management Shell cmdlet. The feature does not seem to be working, even though Get-SPOTenant shows the option is set to allowed.
