[Options vs. Futures: What's the Difference?](#)

Options and futures are both financial products that investors use to make money or to hedge current investments. Both are agreements to buy an investment at a specific price by a specific date.

[Pearson - Options, Futures, and Other Derivatives, 9/E](#)

Options, Futures, and Other Derivatives by John C. Hull bridges the gap between theory and practice by providing a current look at the industry, a careful balance of mathematical sophistication, and an outstanding ancillary package that makes it accessible to a wide audience.

Through its coverage of important topics such as the securitization and the credit crisis, the overnight indexed swap
