**Governance of Water-Related Conflicts in Agriculture: New ...**

For those working on water and environment issues in other parts of the world, notably the developing world, this book provides interesting insight into how the process of the internalisation of environmental concerns into national, regional and local water policy and practice is happening in Europe."

**Water Governance - Water Governance Facility**

Water governance refers to the political, social, economic and administrative systems in place that influence water's use and management. Essentially, who gets what water, when and how, and who has the right to water and related services, and their benefits.
