In vitro fertilization (IVF); a review of 3 decades of ...

In vitro fertilization, popularly referred to as IVF, has captured the attention of the public since its sensational introduction in 1978. Today assisted reproductive technology is available throughout most of the civilized world, and the practice is largely different from that used during the early days.

In vitro fertilisation - Wikipedia

In vitro fertilisation (IVF) is a process of fertilisation where an egg is combined with sperm outside the body, in vitro ("in glass"). The process involves monitoring and stimulating a woman's ovulatory process, removing an ovum or ova (egg or eggs) from the woman's ovaries and letting sperm fertilise them in a liquid in a laboratory.

In Vitro Fertilization Quebec & Ontario | Procrea IVF Clinic

In Vitro Fertilization (IVF) goes beyond this point by bringing the woman's egg and the man's sperm together outside the woman's body. The term test tube babies is synonymous with IVF. The term test tube babies is synonymous with IVF.
