Mathematical Finance | Mathematics | University of Waterloo

Mathematical Finance is an elite finance program offered jointly through the Department of Pure Mathematics and the Department of Statistics and Actuarial Science.

Students in this plan will learn both the pure mathematics and the mathematical finance necessary for graduate work or a career in the highest echelons of banking and mathematical finance. This is a very challenging plan, designed

Mathematical finance - Wikipedia

Mathematical finance, also known as quantitative finance, is a field of applied mathematics, concerned with mathematical modeling of financial markets. Generally, mathematical finance will derive and extend the mathematical or numerical models without necessarily establishing a link to financial theory, taking observed market prices as input.
