**Metaphor and Cognition - An Interactionist Approach** | B ...

A comprehensive theory of metaphor is proposed in this framework that explains how metaphors can create similarities, and why such metaphors are an invaluable asset to cognition. The framework is then applied to related issues of analogical reasoning, induction, and computational modeling of creative metaphors.

**Metaphor and Cognition** | Barie Fez-Barrington - Academia.edu

Metaphor is a tool for the artist to know, perceive, to be known and perceived. It is central to cognition insofar as a sensed event links to a referent which can then be known. We really know only when we make the new perceived strange event familiar. As cognition is the mental process of knowing, including aspects such as awareness, perception, reasoning, and judgment is what actually is
