Values are generally expressed in terms of should. Values are implanted early in a person's life and once they are fixed, serve as a guide in choosing behaviour and in []

Social Roles and Social Norms | Simply Psychology

Norms provide order in society. It is difficult to see how human society could operate without social norms. Human

beings need norms to guide and direct their behavior, to provide order and predictability in social relationships and to make sense of and understanding of each other's actions. These are some of the reasons why most people, most of the time, conform to social norms. Conclusion

Norm | society | Britannica.com

Norm: Norm, rule or standard of behaviour shared by members of a social group. Norms may be internalized i.e., incorporated within the individual so that there is conformity without external rewards or punishments, or they may be enforced by positive or negative sanctions from without. The social unit's
