[THE DEVELOPMENT OF TRANSPORT NETWORKS AND URBAN GROWTH, 1840-1970 3.1 Introduction](#)
Many sectors of the national economy have experienced an era of unprecedented growth over the period 1840-1970. This process of growth is reflected in the changing nature of the relations between towns and their rural hinterlands, as well as in the relations between towns and cities.

Initially, one notes the

Population Growth and Urban Systems Development: A Case ...

The acceptance of this notion makes it possible to study the urban system as a population system. The analysis of the population system over the study period will be pursued from this perspective. The study period, 1840-1970, covers completely the industrialization and urbanization phase which occurred during the industrial revolution. Over this period the spatial organizational structure of
