[Psychiatry Research - Journal - Elsevier](#)
Psychiatry Research: Neuroimaging This journal provides
rapid publication of complete research reports and reviews
in the field of psychiatry . The scope of the journal
encompasses:

[Research | Department of Psychiatry](#)

Research At the University of Toronto, we are uniquely
positioned to engage the challenges and opportunities of
contemporary psychiatry and mental health. As a leader in
brain science, we are fostering the integration between
psychiatry and other areas of medicine.

[Department of Psychiatry - Department-Psychiatry-31
...](#)

We are committed to continuing innovative research that is
internationally recognized to try to improve care and to
ensuring the next generation of health care providers
receives the best training. I am grateful to be working with
an institute that prizes collaboration, innovation and
integration.

[Researchers | Department of Psychiatry - McGill
University](#)

The Department of Psychiatry boasts over 100 researchers,
who work together to promote world-class investigations
on issues relevant to mental health. We have a diverse
group of outstanding scientists who are internationally
recognized, carrying out pioneering work in all research
disciplines.

[Research - Psychiatry - Western University](#)

Research development is a core component of the Division
of Geriatric Psychiatry at Western. The Division enjoys a
strong collaborative relationship with other disciplines
involved in the care of the elderly; this is also reflected in
some of the collaborative research projects developed
between Geriatric Psychiatry and Geriatric Medicine.

[Research | Department of Psychiatry - McGill
University](#)

The McGill Department of Psychiatry is home to some of
the top researchers, research institutes, and research
facilities in mental health in the world. Over the past seven
decades, the Department has been at the root of countless
breakthroughs in psychiatric research. Heinz Lehmann, a
key figure in the history of the Department, acted as a

methods and treatment approaches.

Psychiatry Research Day | Faculty of Medicine & Dentistry

We conduct our teaching, research and patient care in accordance with the highest international standards. We work with our partners in education, research and health care for the greater good of the local, regional and global community.

Research | Faculty of Medicine & Dentistry

This includes research in models of psychiatric disorders and research in people with or without mental illnesses. Ongoing translational and clinical research in our department is testing new experimental therapies and identifying methods to improve diagnosis of mental illness and improve mental health care.

Journal of Psychiatric Research - Elsevier

Founded in 1961 to report on the latest work in psychiatry and cognate disciplines, the Journal of Psychiatric Research is dedicated to innovative and timely studies of four important areas of research:

Psychiatry - College of Medicine - University of Saskatchewan

Psychiatry The Department of Psychiatry is one of the clinical departments within the College of Medicine and provides a full range of education, research and clinical services to Saskatoon and surrounding area as well as fulfilling a provincial academic mandate.

Research Events - psychiatry.mcmaster.ca

Research in the Department of Psychiatry and Neuroscience is focused broadly on increasing our understanding of factors leading to the onset and maintenance of mental illnesses and addiction, as well as the development and evaluation of new assessment methods and treatment approaches.

Research | Department of Psychiatry

Research Dr. Nathan Kolla is involved with investigations in neuroimaging of impulsive and aggressive individuals. Positron emission tomography (PET) studies are currently underway that seek to understand the neurochemical correlates of impulsive, aggressive behavior in individuals with borderline personality disorder or antisocial personality disorder.

MSc by Research in Psychiatry | University of Oxford

The MSc by Research in Psychiatry is designed to allow you to develop the skills required to become an independent researcher, as well as acquiring expertise within a particular research area.
