Based on award-winning scientist Marc Bekoff's years studying social communication in a wide range of species, this important book shows that animals have rich emotional lives. Bekoff skillfully blends extraordinary stories of animal joy, empathy, grief, embarrassment, anger, and love with the latest scientific research confirming the existence of emotions that common sense and experience have

[The Emotional Lives of Animals: A Leading Scientist ...](#)
The premise of this book is to call for a reassessment of how we view animals and how their emotional lives at least to some point drive their behavior. The author puts forth the belief that animals are thinking, feeling sentient beings as we are. And because they are we need to reassess and change

When Elephants Weep: The Emotional Lives of Animals ...

The author believes it perfectly reasonable to acknowledge the emotional lives of animals for the same reasons. The quality of the writing itself in "When Elephants Weep" is not especially good, but I do recognize that it is very difficult to produce a pleasant and engaging writing style when one is simply cataloging a lot of data.
