NOTE: You can also click on the different displayed windows at the top of the "Window Color and Appearance" window to select a Item to. To Change the Item Size - Change the Size number to what you want. To Change the Item Color - Click on the Color 1 and Color 2 drop down menu and select a color. NOTE: The color will only change if you have the Windows Classic theme

selected. C) To Change the

How to change default window background color in Windows ...

In Windows 7 and Windows XP it was very easy to change the default background color of all windows to whatever you want. Staring at white window backgrounds all day is hard on the eyes. Once changed, ALL windows of all apps would conform to the custom color as long as the apps allowed the windows bg to be invoked. So for example it worked great in Notepad and many other apps. **MS-DOS and Windows command line color command**
The color command allows users running MS-DOS or the Windows command line to change the default color of the background or text. Sets the default console foreground and background colors. **COLOR [attr] attr** Specifies color attribute of console output. Color attributes are specified by TWO hex digits
